Transfer form

Details of the securities to be transferred

In the table below fill in [the securities you want to transfer](#).

- Please add a valid copy of the identity card of both account holders. Your transfer will not be processed if you have not added these documents.
- Bolero transfers only available securities. If part of the securities you want to transfer are not available due to an outstanding order, none of the securities will be transferred. Please cancel first these outstanding orders or request only a transfer for available securities.
- Rights and coupons cannot be transferred.
- If you want to transfer options, the option contract of the receiving account should be signed first.
- If you have signed an attestation to avoid double taxation, this attestation is not automatically transferred to the receiving Bolero account. You need to sign the attestation for every Bolero account separately.
- If it concerns a bond transfer, you need to take into account that withholding tax will be deducted from the instructing account.
- If you want to transfer securities from one Bolero account to multiple Bolero accounts, please fill in a separate transfer form for every account.
- Do you want to receive your dividend in original currency? Please indicate it for every Bolero account separately in the settings menu on the Bolero platform or in the apps.
- You are unable to transfer positions that lack any value.
- If you are transferring portfolios from multiple financial institutions, please complete a separate transfer form for each bank/broker.
- To transfer securities can take some time. While the transfer is taking place you are unable to sell the securities or close option positions, unless you are transferring securities from KBC Bank to Bolero.
- You can pass on the initial purchase price of the securities via info@bolero.be.
- Bolero has the right to refuse certain securities, e.g. because trading in them has been suspended.

If you run out of space in this table, you can add a document yourself.
